HOW DO THESE APPOINTMENTS HELP YOU?

DENTAL EXAMINATIONS

At Guinea Court Dental Surgery we believe in prevention before intervention. It is always better to help our patients to prevent tooth and gum disease, than intervene to repair the damage once it has occurred. During a dental examination, we fully assess not only your teeth and gums but also your jaws, cheeks, mouth and face for any underlying problems.

HYGIENE APPOINTMENTS

Healthy gums mean a healthy smile and the best way to look after your gums is through regular appointments with the hygienist. Your dental care routine at home does most of the hard work, but a hygienist can clean hard-to-reach areas and keep an eye on any signs of gum disease.

This results in the complete package to maintain your oral health. We strongly recommend joining to help reduce the risk of expensive restorative treatment in the future.

* The Worldwide Dental Emergency Assistance Scheme is a scheme established to offer support and assistance to dental plan patients who request treatment following a dental trauma and/or dental emergency or oral cancer. The Scheme responds to requests for assistance on a wholly discretionary basis. This means that, whilst the Scheme aims to provide benefits in most cases, it has no obligation to provide any benefit unless it first decides (in its sole and absolute discretion) that it should provide a benefit. There are some circumstances in which the Scheme is not designed to help and these are explained in more detail in the Scheme Handbook. Each request will be looked at individually to assess the request for benefit. Certain restrictions and limitations may apply in the event that the request is accepted and it is possible that the Scheme will decide to provide no benefit.

** Exclusions apply.

*** The provision of routine examinations and hygiene visits is subject to receipt of the required consecutive monthly payments.

**** An initial administration fee of £9.50 will be collected with your first payment only.
