## HOW DO THESE APPOINTMENTS HELP YOU?

### DENTAL EXAMINATIONS

At Guinea Court Dental Surgery we believe in prevention before intervention. It is always better to help our patients to prevent tooth and gum disease, than intervene to repair the damage once it has occurred. During a dental examination, we fully assess not only your teeth and gums but also your jaws, cheeks, mouth and face for any underlying problems.

### HYGIENE APPOINTMENTS

Healthy gums mean a healthy smile, and the best way to look after your gums is through regular appointments with the hygienist. Your dental care routine at home does most of the hard work, but a hygienist can clean hard-to-reach areas and keep an eye on any signs of gum disease.

This results in the complete package to maintain your oral health. We recommend joining to help reduce the risk of expensive restorative treatment in the future.
